## EXPERIENCE

---

### THE IRON YARD

#### Front-End Engineer

May 2016 – August 2016

- Completed a 12-week immersive programming bootcamp focused on Front-End Engineering practices for building and maintaining websites and web applications
- Developed a mobile-first AngularJS application in 3 weeks backed by Ruby on Rails that exposes users to a more distilled directory of community establishments
- Practiced Agile Development working in sprints, creating user stories, using Trello, and executing daily standups
- Finished weekly technical projects in three months to learn and gain knowledge around current development tools, techniques, and best practices

### ETTAIN GROUP

#### Senior Technical Recruiter

March 2015 – May 2016

- Promoted to Senior Technical Recruiter in March 2015 while maintaining all previous responsibilities
- Gathered requirements, scope and objectives of clients' business needs from their Partner Engagement Platform
- Assisted in contract negotiation, managed service agreements, service level agreements, and statements of work with Account Managers and Business Development Managers
- Lead daily team board meetings to understand clients' needs while delegating and reviewing daily assignments
- Increased responsibilities with two National Accounts, including access to higher level strategic planning

#### Technical Recruiter

December 2014 – March 2015

- Promoted to Technical Recruiter in December 2014 while maintaining all responsibilities of a Resource Specialist
- Mentored and trained new hires to encourage more success in selling and delivering solutions
- Lead daily team board meetings to understand clients' needs while delegating and reviewing daily assignments

#### Resource Specialist

March 2014 – December 2014

- Recruited high-end technical professionals in the Information Technology Industry for contract, contract-to-hire, and full-time positions with Cisco Systems as primary account
- Responsible for driving the hiring process through creative recruiting resources such as the internal database, cold calling, networking events, referrals, and online resources including LinkedIn, Indeed, Monster, CareerBuilder, Dice, Google, Twitter, Entelo, and Facebook
- Accountable for understanding the client's opportunities and screening candidates through phone conversations, on-site interviews and reference checks to ensure proper qualifications
- Built strong relationships with all customers including contractors, clients, candidates, and internal employees
- Provided professional, career-advancement consulting to hundreds of IT candidates and consultants
- Gathered, analyzed, and assessed businesses' technical/staffing/consulting needs, and provide them with the best-qualified resources to meet their business goals
- Recruited on a wide range of positions, including Project Management, Business Analysis, Quality Assurance, Network Engineering, Software Development, and various niche skill-set opportunities

### DUKE DIVING CLUB

#### Coach

October 2013 – May 2015

- Coached divers from ages 7 to 17, helping them advance their diving skills and achieve success
- Assessed the needs of each athlete; developed and implemented training strategies
- Helped motivate athletes through leadership and experience
